### Professional Mobile LED Screen Trailers

In today's visually-driven world, incorporating captivating visual elements into events has become essential. Mobile LED screen ideal for showcasing presentations, videos, graphics, broadcasting live events or performances, live feeds from social media platforms and other visual content. Whether you're organizing a corporate conference, trade show, concert or sporting event, product promotion, exhibition - mobile LED screen will be a great addition. It will create an interactive experience that keeps attendees captivated throughout the event and leave a lasting impression. Mobile LED screen trailers can be transported to different locations and set up in various areas, providing a flexible solution for outdoor and indoor events or advertising, and can reach a large audience, making them an effective tool for promoting products, services, events or brand awareness.

#### Performance Scenes and Stages

With their superior image quality and vibrant colors, stage LED screens offer an indispensable viewing and immersive experience, creating attractive spectacle that leaves lasting impression for audience. Mobile stage LED screens serve as a visual focal point, ensuring that everyone can enjoy optimal viewing experiences regardless of their location.

#### Corporate Events, Conferences and Training

LED screens for corporate events and conferences can take them to the next level. Whether used in an academic or professional setting, these screens can upgrade your event and make it easier for viewers to see and read the screen in all kinds of lighting. With LED screen you can showcase presentations, pre recorded content and video, also integrate live footage or incorporate social media channels.

#### Trade Shows and Exhibitions

Exhibitions are an important source of networking and new business. Mobile LED screens provide ideal solution for advertising and maintaining the visitors attention. Screens will showcase products and services, provide useful way of finding methods and display important information about the exhibition, assist in finding key exhibitors.

#### Live Streaming and Broadcast

Mobile LED screen trailers are perfect for sports or live event broadcast in city squares, outdoor cafes, stadiums, parks or other large spaces. Our large (up to 28m<sup>2</sup>) and high definition mobile LED screens are designed to lift up and rotate 360° degrees to get maximum visibility, are supplied with waterproof speakers and direct or remote camera input into HD video processor.
